All aboard for Open House Dublin 2011: Free “Destination LUAS” Tours

LUAS has joined forces with The Irish Architecture Foundation (IAF) on “Destination LUAS” a partnership project as part of the hugely popular Open House Dublin weekend, which takes place from Friday, October 7th to Sunday, October 9th.

“Destination LUAS” includes;

- 500 Free Family 1 Day All Zones (2 Adults & 4 children) tickets with special LUAS Family Activity sheets to enjoy Open House Dublin 2011
- 4 Free LUAS Tours about architecture, landscaping and urban planning
- Posters at LUAS stops to guide passengers to nearby Open House Dublin buildings/events

Free “Destination LUAS” tickets will be available to the public from September 19th on www.luas.ie

About Open House Dublin, October 7th to October 9th, 2011

Over the Open House Dublin weekend, over 100 Dublin buildings of all types and periods will open up their doors for citizens and visitors to explore the architecture of the city, with special tours by hundreds of professionals and enthusiasts, completely for free. Open House Dublin 2011 has adopted the theme THE ARCHITECTURE OF CHANGE, exploring how good design can be a catalyst for change and positively touch all our lives; from large scale master planning to small but skilful interventions in residential design.

See www.architecturefoundation.ie/openhouse for programme details: full programme online from September 15, 2011. All events are free of charge and only a small proportion require pre-booking, which opens online on September 19th, 2011.

About the Irish Architecture Foundation

The Irish Architecture Foundation (IAF), who delivered its first Open House Dublin in 2006, has firmly established the project as Ireland's largest architectural event with an estimated 25,000 people taking to the streets in 2010 to explore their city's architecture. Established in 2005, the IAF's role is to be a vibrant and passionate organisation that excites its audiences about the value of architecture.

Ends.
