

Construction of **Luas Line C1 is about to begin**. Resurfacing works will commence in early June on the existing road bridge over George's Dock on Mayor Street.

This work will involve the removal of the existing bridge surfacing and the installation of the new surface with embedded rails for the Luas. In addition the bridge parapets will be replaced and the bridge repainted. To carry out the bridge resurfacing works a road closure is required on Mayor Street at Georges Dock Bridge.

Luas Line C1 - Connolly to The Point

This will prevent through traffic at this point from June 2007 to September 2007.

Access will be maintained to premises on either side of George's Dock Bridge on Mayor St Lower. Premises on the west side of the bridge can be accessed off Amiens Street and premises on the East side of the bridge can be accessed via Commons Street from Customs House Quay or Sheriff Street.
