

RAILWAY PROCUREMENT AGENCY

Luas Lucan (Line F) Environmental Impact Assessment

Railway Procurement Agency (RPA) is commencing the process of a Railway Order application for Luas Lucan (Line F). This line is included in Transport 21 and links Lucan with Dublin City Centre.

Part of the Environmental Impact Assessment (EIA) process involves the preparation of an Environmental Impact Statement (EIS), a document which will report on the likely significant environmental impacts of Line F. RPA is coordinating the EIS and is working with a team of specialists to consider the likely significant environmental impacts associated with Line F.

As a preliminary step in the preparation of an EIS, a Draft EIS Scoping Report has been prepared for Line F. This document sets out the proposed content (scope) of the Line F EIS, the environmental issues to be investigated and the methodology for assessment of the environmental issues.

The Draft EIS Scoping Report for the Line F EIS is available for free download at www.rpa.ie.

RPA would welcome any observations in relation to the Line F EIA and in particular the Draft EIS Scoping Report by Monday April 6th 2009. Observations can be submitted to:
