

LUAS CITY / BROOMBRIDGE (LINE BXD)

OPEN DAY

The Railway Procurement Agency (RPA) is developing plans for the proposed new Luas Line that will run from St. Stephen's Green through the city centre to Broombridge - Luas Line BXD. This new Luas Line will link the Luas Red and Green Lines; provide access to the new unified DIT campus facility planned for Grangegorman; and interchange with the Maynooth suburban rail line services at Broombridge.

RPA is currently preparing an application for a Railway Order for Line BXD which, if granted, will provide the necessary powers to construct, operate and maintain the line.

RPA has made arrangements to display its proposals for the St. Stephen's Green, Dawson Street, Nassau Street and Grafton Street (lower) areas of Line BXD as follows:

-  **Venue:** Fitzwilliam Hotel, St. Stephen's Green West
-  **Date:** Wednesday 4th March
-  **Time:** 4.00 p.m. to 8.00 p.m.

RPA values your input to the process of planning and delivering a further extension to the city's Luas system and we look forward to seeing you on the day. Members of the design team will be present to answer queries and listen to your comments.

Arrangements will be made soon for similar displays focusing on the remaining areas of the line.
